FIELD TRIP REPORT

Background:

On October 21, 1980, FIT III conducted a Site Inspection/Sampling of the Hoffman Landfill, near Frostburg, Maryland. FIT III was tasked to conduct a resampling of the landfill and to sample off-site, downgradient residence wells, in order to determine whether possible ground water contamination represented a significant hazard to human health.

FIT III conducted a resampling of the Hoffman Landfill on July 21 and 22, 1981. This landfill is located in an inactive/reclaimed strip mine. The Lee and S. Bumble. Three monitoring well samples and one off site well sample were obtained and submitted for analysis of organic and inorganic priority pollutants.

Contacts:

Edgar Woods
Allegheny County Health Department
Cumberland, Maryland
301-777-5647

Comments:

- All residences and most businesses along the Georges Creek Syncline are serviced by a public or private water supply. The Lonaconing Water Co. services north to the town of National. Residences in the Borden Shaft area are serviced by the Borden Shaft-Carlos Water Co. The towns of Wrights Crossing and Grahamtown are serviced by the Frostburg Water Co.

- The Allegheny County Health Dept. had recently conducted a survey in order to locate all wells in the area. Four wells are known of, none of which appear to be used for domestic purposes. One of these wells at the Maple Hurst Country Club is located west of the Hoffman Landfill and was sampled by the FIT III team.

SAMPLE LOG

On July 21, 1981 each monitoring well was bailed until a constant conductivity reading was obtained for eight consecutive bails. Wells were

Case #565

Monitoring Well #3 - Water Sample
Organic Traffic Report #C-0607
No inorganic sample

Time: 0920 hrs.

Tag #23, 24, 25

53 ft. depth to water surface. Organic vapor concentrations (non methane) up to 30 ppm (HNU) in well head.

Monitoring Well #5 - Water Sample
Organic Traffic Report #C-0590
No inorganic sample

Time: 0845

Tag #17, 18, 19

30 ft. depth to water surface. Well uncapped. Sample brown/orange color with suspended solids.

Monitoring Well #10 - Water Sample
Organic Traffic Report #C-0605
No inorganic sample

Time: 0900

Tag #20, 21, 22

52 ft. depth to water surface.

Monitoring Well #4 - Water Sample

Not sampled, readings above the UEL on the explosimeter. Organic vapor concentrations (non methane) over 100 ppm (HNU) at well head.

Maple Hurst Country Club Well - Water Sample

Time: 1100

July 21, 1981

Organic Traffic Report #C-0588

Tag #9, 10, 11

Inorganic Traffic Report #MC-8302

Tag #12

The well is approximately 300 ft. deep. The pumped water flows through an underground pipe and is discharged into a small pond. The sample was obtained at the point of discharge.
